SUMMARY

Web developer experienced in WordPress, Shopify, and other CMS platforms, building responsive, high-performance websites. Proficient in PHP, JavaScript, HTML, and CSS, with expertise in custom themes, dynamic features, SEO optimization, and analytics integration to deliver functional, design-driven web solutions.

WORK EXPERIENCE

WordPress Specialist - Plant Buy

Sept 2025 - Nov 2025

- **Enabled plant shoppers to easily browse and navigate** the website by creating a fully customizable WordPress setup powered by ACF, Custom Post Types, and category-based filtering.
- **Improved user experience across devices** by developing a fully responsive layout, making the site smooth and accessible on mobile, tablet, and desktop.
- **Strengthened the site's visibility** and tracking accuracy through proper SEO setup using Google Analytics and Google Tag Manager, helping the client better understand user behavior and improve marketing decisions.

n8n Automation Specialist - Juan's Digitals

July 2025 - Sept 2025

Created automated workflows for a tech startup:

- **Hassle Free LinkedIn & IG Posting:** Set up automatic posting from Google Drive, triggered when a file is uploaded to a designated folder.
- **Created Proposal Generation Tool:** Built an automation that generates detailed proposals in PPT format. By feeding it a company's problem and solution, the tool creates a structured approach and delivers the presentation directly via email.

Computer Programmer - Government JO

Jan 2025 - July 2025

- Maintained existing office computer systems, including updates and troubleshooting
 - Added new features and applied fixes to resolve bugs and system issues
 - Entered and organized legislative records and resolutions
 - Provided technical support to co-workers and staff
 - Wordpress uploads and updating pages for events.
-

EDUCATION
